

**AT METHODIST HEALTHCARE  
WHEN IT COMES TO HEART ATTACKS,  
WE DON'T SKIP A BEAT.**

**NOW METROPOLITAN METHODIST HOSPITAL  
AND NORTHEAST METHODIST HOSPITAL  
JOIN METHODIST HOSPITAL AS ACCREDITED  
CHEST PAIN CENTERS.**

**AND METHODIST HOSPITAL IS HOME TO  
THE LARGEST, MOST TRUSTED CORONARY  
CARE CENTER IN SOUTH TEXAS:  
METHODIST HEART HOSPITAL.**

*If you're ever experiencing the symptoms of a heart attack, here's some news you should take to heart.*

After evaluation by a review team from the Society of Chest Pain Centers, Metropolitan Methodist Hospital, Northeast Methodist Hospital and Methodist Hospital all have been designated as accredited Chest Pain Centers. To achieve this distinction, the hospitals demonstrated their expertise and commitment to quality patient care and met or exceeded a wide set of standards related to heart care, including:

- Quickly assessing, diagnosing, and treating patients with chest pain
- Ensuring personnel are trained to the highest standards
- Having a functional design that promotes optimal patient care
- Continually seeking to improve processes and procedures
- Integrating the emergency department with the local EMS

*Now your choice for heart care is even easier.*

It's important to know you have a choice where to go for heart care. If you or a loved one is experiencing symptoms of a heart attack, call 911 immediately. You can request to be brought to Methodist Hospital, Northeast Methodist Hospital or Metropolitan Methodist Hospital. Choice does matter. And now more than ever, when you choose Methodist, your heart's in the right place.
